

Notice: Academic Standards / Approved by PSD Board of Education on July 8, 2019

The Pewaukee School District uses a variety of reputable learning standards as the foundation for the development of rigorous curricula designed to ensure students are well prepared with the skills necessary to be successful as they pursue a career, technical training/education, and/or a post-secondary degree. All standards selected are systematically evaluated and subsequently integrated as a component of the ***Pewaukee School District Curriculum Evaluation and Renewal Process***. The Board of Education acts to formally approve the curriculum of which the standards are a component. The approval process also includes the review of primary instructional materials. Student achievement in relation to specific subjects and standards is continually monitored using the Pewaukee School District Balanced Assessment System.

The following sets of standards have been approved through the curriculum process for the 2019-20 school year:
