Peers for Peers: Nicotine stops new brain cells forming. Nicotine can kill brain cells and stop new ones forming in the hippocampus, a brain region involved in memory

Medal of Awesome

Mr. Farra awarded today's Medal of Awesome to Raghav Podugu, saying "Mr. Whelan's students have been very helpful in my first week here. I appreciate everyone of them. Raghav has stood out by taking the lead in helping other students with the lessons. Making sure that everyone understands what this new teacher is trying to teach. Thanks Raghav."
