

## Pewaukee School District

### COVID-19 Update

January 5, 2021

**Weekly Update Data:** This information is provided in an effort to be transparent with the level of COVID-19 virus activity within the school district. Please note that information relative to any individual's health is very sensitive and private so we are taking steps to secure the anonymity of individuals. Student numbers will be published at a school level and the district as a whole. In any school in which the number is <5 we will post an \* to avoid the likelihood of exposing the identity of an individual. We will provide a summary number for the district as a whole. For staff, because they are fewer in number, we will only post that information for the district as a whole.

Data related to the spread of the virus in our region can be reviewed using the **Waukesha County COVID-19 Dashboard** at [Coronavirus](#) .

**Phase Status:** *Current level = Phase 2; Grades 4K-5 (Full attendance MT,TH,F & All Virtual Wed)*  
*Phase 1; Grades 6-12 (hybrid / 50% attendance)*

Happy 2021! Helpful trends have continued as declines in case counts have been stable over the past month and our internal numbers of both infections and quarantined students and staff are at the lowest they have been in since October. It is also exciting to see the start of the distribution of vaccines around the nation and the world. We are getting there but we must continue working together to get through this as safely and productively as possible.

In response to improved conditions **we will be moving Asa Clark and Pewaukee High School to Phase 2 (all students, 4-days/week M/T/TH/F & all virtual on Wed) starting Monday, January 11th.** Please note that ***with our move to full size attendance groups, it is critical that students, parents, and staff work together to double down on our mitigation efforts so that we can stay safe to stay open.***

Please remain disciplined by:

- Staying home/not sending students who have any viral symptoms
- Practicing social distancing to the best of our ability
- Thoroughly and frequently washing your hands or using hand sanitizer
- Cooperating with contact tracing protocols
- Wearing face coverings consistently and appropriately (see graphic below)

**Quarter 3 Learning Environment Selection:** On Monday evening, all families should have received an email with information and a link to allow for the selection of the preferred learning environment for the 3rd quarter. The choices remain the same as they have been from the start of the year, either to select the in-person attendance option or the fully virtual option. These selections are expected to be a 9-week commitment.

**Data Table Terms**

**Active Cases:** This term refers to individuals with a confirmed COVID-19 diagnosis who are not considered recovered. This would apply to any individual who has not completed the required 10-day isolation period which must also include 24-hours symptom free.

**Probable COVID-19:** This term refers to individuals who are symptomatic and have a known exposure to someone who has been diagnosed with COVID-19. Probable COVID-19 cases are included in the active cases data in the table below.

**Quarantine:** This term refers to individuals who are placed in quarantine due to a known exposure to an individual confirmed to have COVID-19 or due to the presentation of symptoms consistent with the virus.

January 5, 2021		
School	Student Active Cases (Confirmed COVID-19 / Non-recovered & Probable COVID-19) (Last update / +/- Change)	Students Quarantined (Symptomatic of, or Exposed to, COVID-19 / 10-14-day Quarantine) (Last update / +/- Change)

PLE	*	11
Horizon	*	12
Asa Clark MS	*	11
PHS	*	17
<b>Total</b>	<b>11 (16 / -5)</b>	<b>51 (64 / -13)</b>
District (Staff data x district level only to protect privacy of individuals)	Staff Active Cases (Confirmed COVID-19 / Non-recovered & Probable COVID-19)	Staff Quarantined (Symptomatic of or Exposed to COVID-19 / 14-day Quarantine)
PSD	<b>4 (6 / -2)</b>	<b>3 (7 / -4)</b>
* Indicates less than 5 cases to protect the privacy of individuals infected or in quarantine		

(Note: The **table above** represents most current day's data, whereas the **graph below** shows weekly trends from each Friday to provide a historical comparison.

## Weekly Summary
