

Pewaukee School District

COVID-19 Update

March 10, 2021

Weekly Update Data: This information is provided in an effort to be transparent with the level of COVID-19 virus activity within the school district. Please note that information relative to any individual's health is very sensitive and private so we are taking steps to secure the anonymity of individuals. Student numbers will be published at a school level and the district as a whole. In any school in which the number is <5 we will post an * to avoid the likelihood of exposing the identity of an individual. We will provide a summary number for the district as a whole. For staff, because they are fewer in number, we will only post that information for the district as a whole.

Data related to the spread of the virus in our region can be reviewed using the **Waukesha County COVID-19 Dashboard** at [Coronavirus](#) .

Phase Status: *Current level = Phase 3; Grades 4K -12 (Full attendance Mon - Friday)*

Late last week we experienced a bit of a jump in student cases and a notable increase in student quarantine. It is imperative that we continue to practice the mitigation practices that have allowed us to fully open our schools and allow substantial access to extracurricular activities. **We have emphasized in recent weeks how important it is for students with viral symptoms to stay at home (from school AND athletic practices - school or youth programs) and we urge you to have your child tested if they are symptomatic or have been exposed to someone who has been diagnosed with Covid-19.** You can access the [PSD Decision Making Tree](#) if you are unsure about the process. It is very easy to get same day test results in our region. One location you may go to that guarantees **same day results**, and allows **walk-in appointments** is <https://www.summitclinicallabs.com/>. They have multiple locations including nearby in Delafield. Of course you can go anywhere you prefer for testing this is just one option. **Our current increase in student quarantine has included multiple incidents in which students attended school or after school activities when symptomatic. Please consider the impact of your child on others and take responsible action.**

The good news is that **daily infections in the county and state continue to be low**. In addition, we were very pleased to run an onsite vaccination clinic for PSD staff on Friday, March 5th. The second dose clinic will take place on March 26th which is now a professional development day for staff/non-student day (as communicated last week).

Please note that **with our move to full size attendance groups, it is critical that students, parents, and staff work together to double down on our mitigation efforts so that we can stay safe to stay open**. Please do your part by:

- Staying home/**not sending students who have any viral symptoms**
- Practicing social distancing to the best of our ability
- Thoroughly and frequently washing your hands or using hand sanitizer
- Cooperating with contact tracing protocols
- Wearing face coverings consistently and appropriately (see graphic below)

Masking Requirement: You may be aware that the state legislature is considering action that may cancel the Governor's current statewide mandate for face coverings. Regardless of whether an executive order from the Governor is in place, **the Pewaukee School District will maintain and enforce a requirement for wearing face coverings in our schools for students, staff, and visitors. This will continue until the guidance from the CDC, state and county public health departments advise otherwise.** We have had excellent cooperation with this and other mitigation efforts which is an important reason why we have been able to sustain in-person attendance.

Support Resources: These atypical times have been shown to contribute to increases in mental health issues for students and adults as routines are disrupted and this can lead to feelings of isolation and helplessness. Our student services staff are a tremendous resource and are trained to help. Please do not hesitate to contact your child's school counselor if you have any concerns. We are here to help! Data Table Terms

Active Cases: This term refers to individuals with a confirmed COVID-19 diagnosis who are not considered recovered. This would apply to any individual who has not completed the required 10-day isolation period which must also include 24-hours symptom free.

Probable COVID-19: This term refers to individuals who are symptomatic and have a known exposure to someone who has been diagnosed with COVID-19. Probable COVID-19 cases are included in the active cases data in the table below.

Quarantine: This term refers to individuals who are placed in quarantine due to a known exposure to an individual confirmed to have COVID-19 or due to the presentation of symptoms consistent with the virus.

March 10, 2021		
School	Student Active Cases (Confirmed COVID-19 / Non-recovered & Probable COVID-19) (Last update / +/- Change)	Students Quarantined (Symptomatic of, or Exposed to, COVID-19 / 10-14-day Quarantine) (Last update / +/- Change)
PLE	*	5
Horizon	*	26
Asa Clark MS	*	38
PHS	*	57
Total	8 (5 / +3)	126 (53 / +73)
District (Staff data x district level only to protect privacy of individuals)	Staff Active Cases (Confirmed COVID-19 / Non-recovered & Probable COVID-19)	Staff Quarantined (Symptomatic of or Exposed to COVID-19 / 14-day Quarantine)
PSD	0 (1 / -1)	0 (2 / -2)
* Indicates less than 5 cases to protect the privacy of individuals infected or in quarantine		

(Note: The **table above** represents most current day's data, whereas the **graph below** shows weekly trends from each Friday to provide a historical comparison.

Weekly Summary
